1 Management District Plan Summary

Name of District: The name of the District is the *Greater South Park Business Improvement District* (hereinafter the "District"), located in the City of Los Angeles. The District is being established pursuant to Section 36600 et seq. of the California Streets and Highways Code, The "Property and Business Improvement District Law of 1994 as amended," hereinafter referred to as State Law.

In 2002, a group of property owners expressed interest in forming a new business improvement district (BID) in the western portion of a Downtown Los Angeles neighborhood known as South Park. The Greater South Park BID was approved by the City Council in 2004 and District services began in 2005. A decade later, in 2013, a group of property owners expressed interest in forming a new business improvement district (BID) in the eastern portion of South Park. The South Park II BID was approved by the Los Angeles City Council in 2015, and District services began in 2016. As discussed during its formation, the South Park II BID has always intended to become an expansion area for the Greater South Park BID at its next renewal. Both BIDs developed their budget, assessments and services based on a series of meetings with property owners within the District area.

The top priority for the renewed District remains the "clean and safe" programming. The second priority for the District is district identity and marketing (website, database, newsletters and other marketing and business attraction efforts.) The third priority is administration and management. A highly professional, full-time management team was viewed as essential to the implementation and oversight of all other priorities. These priorities are reflected in the budget they developed for the identified assessed parcels in the District. These priorities have been comprehensively reassessed upon any renewal of the District, but have largely remained the same over time.

Type of District: Renewal of the Greater South Park BID (Property-Based BID) and expansion to include the South Park II BID area. The District sunsets on December 31, 2017 and has determined to renew.

Duration: The District shall have a five (5) year term beginning January 1, 2018 and ending December 31, 2022, unless renewed by a new vote of the property owners. If not renewed, or otherwise terminated, any unused funds shall be returned to the property owners in a pro-rata share, in accordance with Streets and Highways Code section 36671.

Implementation Timeline: The District is expected to begin services on or shortly after January 1, 2018. If the District is not renewed, services will sunset on December 31, 2022.

Boundaries: The Greater South Park BID (Property-Based BID) proposes to renew and expand to include the South Park II BID area. It is located in the southwest section of Downtown Los Angeles, and is bounded by three other existing Business Improvement Districts (BIDs): the Downtown Center BID, the Historic Downtown Los Angeles BID and the Los Angeles Fashion District BID, and two freeways: the Harbor (110) Freeway and the Santa Monica (10) Freeway. The proposed renewed District generally includes all properties between 9th Street/Olympic Boulevard on the north, 17th Street/Santa Monica (10) Freeway on the south and an irregular eastern boundary formed principally by an alley between Broadway and Main Streets. The eastern boundary of the District abuts and precisely conforms to the western boundary of the Los Angeles Fashion District BID (another property-based BID that was formed prior to the establishment of this District.) The District includes north-south corridors along Figueroa Street, Flower Street, Hope Street, Grand Avenue, Olive Street, Hill Street and Broadway, and east-west corridors along 9th Street, Olympic Boulevard, 11th Street, 12th Street, Pico Boulevard, 14th Place, 14th Street, 15th Street, Venice Boulevard and 17th Street. See boundaries and boundary rationale (p. 11) and map (p. 10) for further detail. State Law and State Constitution Article XIID require that special assessments be levied according to the special benefit each assessed parcel receives from the improvements. In order to match assessment rates to special benefits received, five (5) zones have been created within the District. See zone boundaries (p. 12) and zone assessment rates (p. 9) for more detail.

Governance: The City shall contract with a non-profit Owners Association to manage the District and implement this plan. The Owners' Association will review and approve the District budget, policies and operational plans. They shall hire and oversee all staff and/or contractors charged with the execution of services to the District. Annual and quarterly reports, newsletters and independent financial statements will be submitted to the City according to a calendar established by the Office of the Los Angeles City Clerk, Neighborhood & Business Improvement District Division.

Definition of Special and General Benefits: As stipulated by Proposition 218, assessment district programs and activities confer a combination of general and special benefits to properties, but the only program benefits that can be assessed are those that provide special benefit to the assessed properties. A "general benefit" is defined as: "A benefit to properties in the area and in the surrounding community or benefit to the public in general resulting from the improvement, activity, or service to be provided by the assessment levied." A "special benefit" as defined by the California State Constitution means a distinct benefit over and above general benefits conferred on real property located in the District or to the public at large. Special and general benefits are defined and discussed in greater detail beginning on p. 10 of the Engineer's Report.

Service & Improvement Plan: The service and improvement plan for the District, totaling **\$2,500,268**, has three budget categories, broken out as follows:

Clean & Safe Programs \$1,650,177 (Special + General Benefit Costs) 66%

Examples include: bicycle, Segway, vehicular or foot patrols, sidewalk sweeping, pressure washing, landscaping, trash removal, graffiti/poster/sticker/gum removal and other related activities

Administration & Management \$375,040 (Special + General Benefit Costs) 15%

Examples include: Personnel costs, city fees, formation costs, legal, accounting, insurance, office space, office supplies and equipment

Marketing & District Identity \$475,051 (Special + General Benefit Costs) 19%

Examples include: Website, newsletter, promotional efforts, outreach programs

Budget: The total 2018 budget for the District is \$2,500,268. Property assessments shall fund \$2,487,767; non-assessment revenue is \$12,501.

Budget Totals Year 1 (2018) thru Year 5 (2022) – Special + General Benefit Costs
(assessment and non-assessment revenues)

* The above tables assume the maximum possible annual assessment increase of 5%. Actual annual increase may be less. 0.5% of the total budget shall be generated from non-assessment source(s.)

Other Budget Provisions: Assessments may be adjusted annually but any increase shall not exceed 5%. Increases are not automatic, and may not occur in any given year. Any annual increase shall require a vote by the District Owners’ Association Board of Directors, and shall be stipulated in the District’s Annual Planning Report submitted to the City. Assessments may be reduced by the District Owners’ Association in any given year. Assessments so reduced may increase in the following year more than the 5% cap up to the maximum rate defined for that year in the table shown on p. 5. Lastly, land use changes or improvements to properties (construction, demolition) during the life of the District could also increase or reduce total assessment revenue. Any changes will be made in accordance with City and State laws.

Any accrued interest or delinquent payments may be expended in any budget category.

Any annual budget surplus shall be rolled over into the following year’s budget for the District, or may be used to cover the costs of renewal of the district. The budget for that year shall be set by the Owners’ Association, in accordance with the Management District Plan. If the District expires with a surplus, funds may be rolled over into a renewed or reformed District if established, but shall only be expended on those parcels that were assessed in the original District; if none is established, the surplus shall be returned, on a pro rata basis, to each property owner in the District, in accordance with State law.

In the calculation of assessments, frontage, lot and building measurements are rounded to the nearest whole number. Assessments are rounded to the nearest cent. The overall budget and budget categories are rounded to the nearest dollar.

Method of Financing: A levy of special assessments shall be made upon real property that receives special benefits from the improvements and activities described within this plan.

Assessment Methodology: All identified assessed commercial, industrial and publicly owned parcels shall be assessed as follows:

Assessment Rate	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5
Per Lot SF	\$0.071663	\$0.00	\$0.071663	\$0.0441	\$0.04
Per Building SF	\$0.055125	\$0.00	\$0.055125	\$0.027563	\$0.025
Per Frontage LF	\$16.5375	\$16.5375	\$13.23	\$11.025	\$10.00
Residential condominiums (per SF only)	\$0.33075	\$0.33075	\$0.33075	\$0.33075	\$0.33075

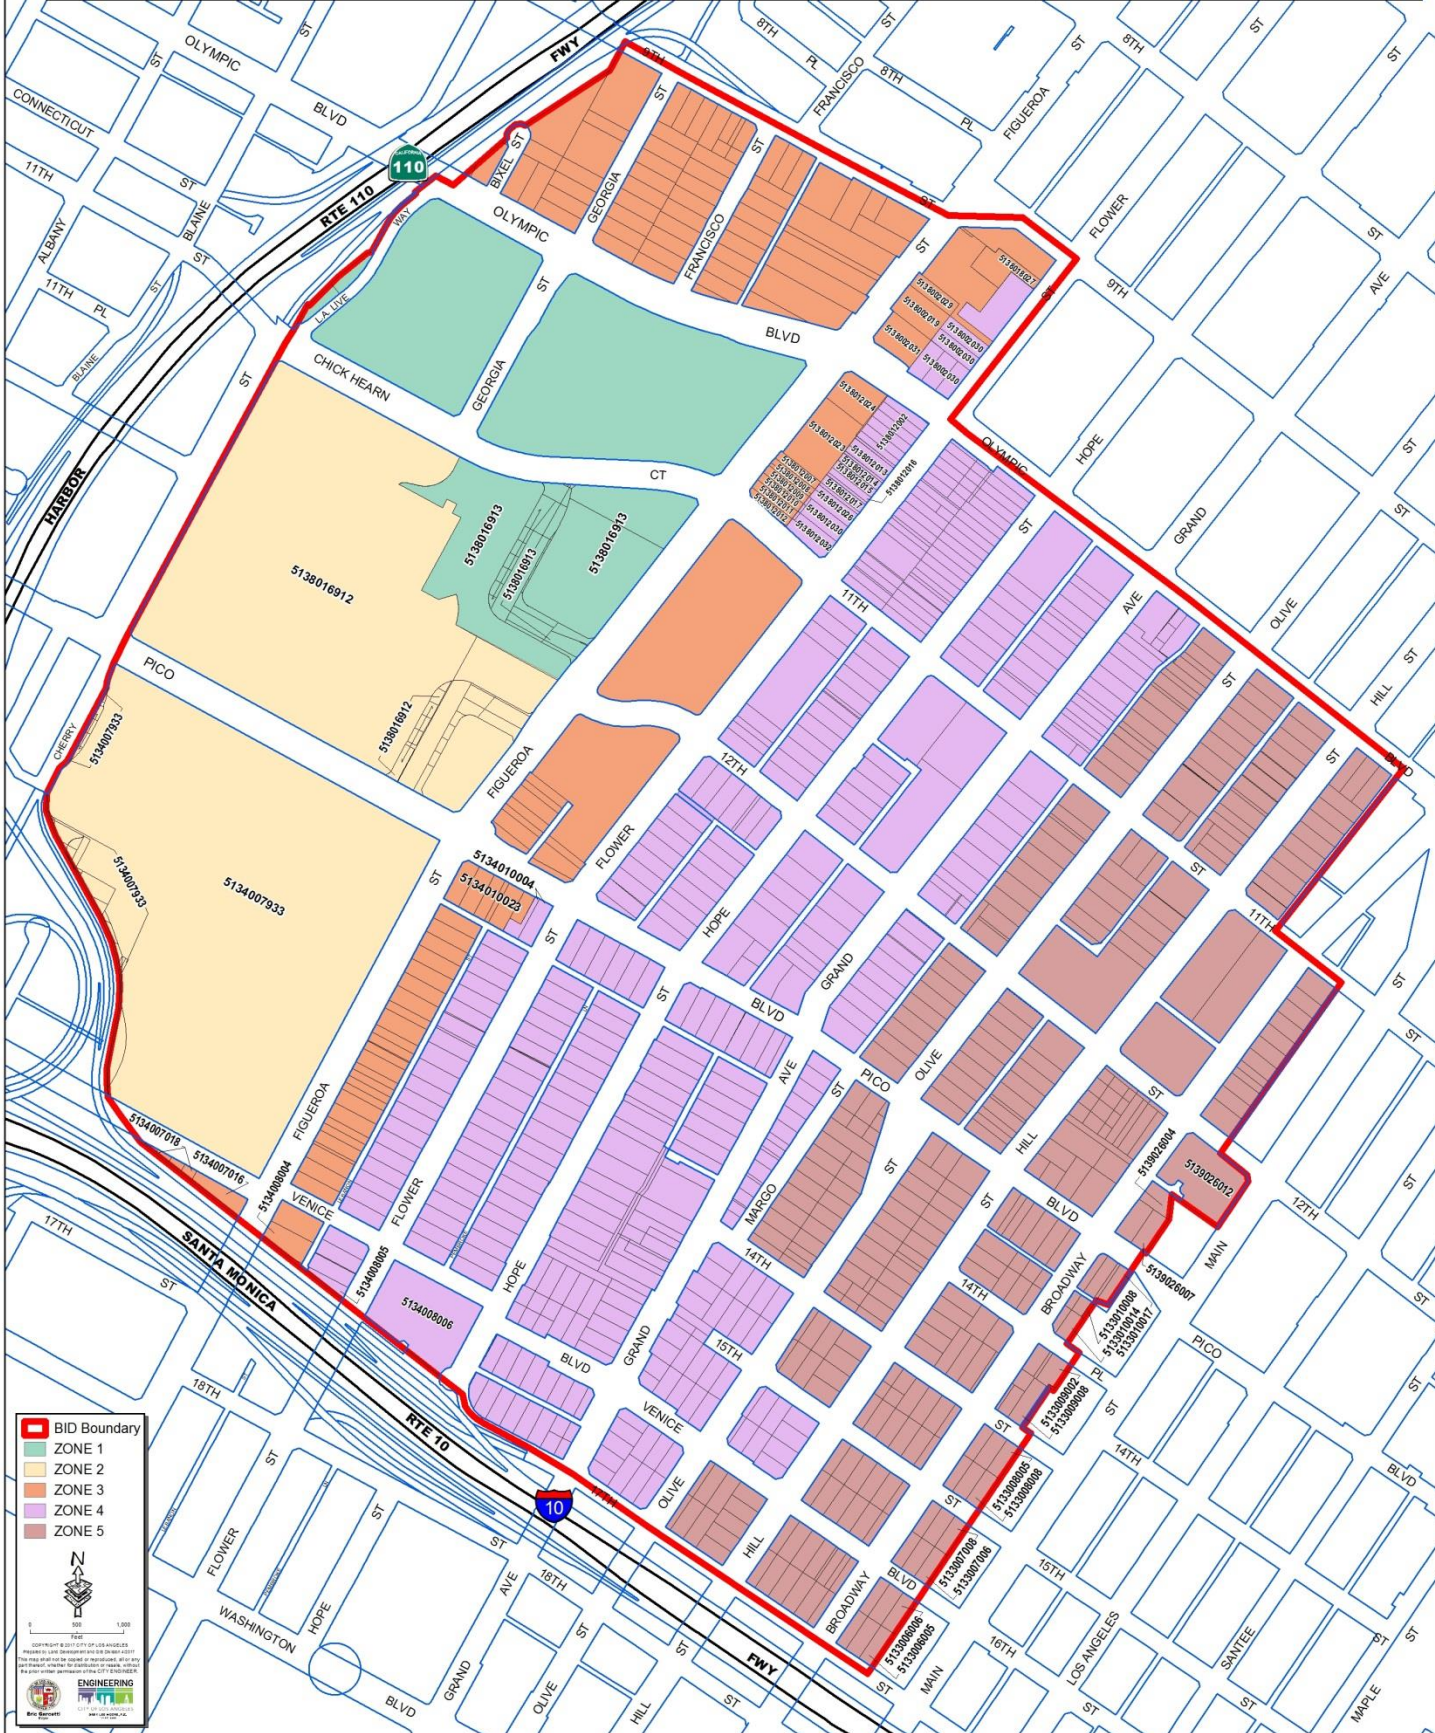

Residential condominiums are assessed at a rate of \$0.33075/sf only; frontage and lot are not factors. All other identified assessed parcels, including commercial condominiums, have an assessment that is calculated as follows: Lot SF x applicable Zone Rate + Building SF x applicable Zone Rate + Frontage LF x applicable Zone Rate = Total Assessment.

District Formation Requirements: In order to form the District, property owners shall present favorable petitions representing more than 50% of the total assessments outlined in the Assessment Roll. Once presented and verified, a ballot procedure shall occur pursuant to CA Proposition 218.

ENGINEERING

City of Los Angeles

2b Boundary: Description & Rationale

District Boundary Rationale: In 2002, a group of property owners expressed interest in forming a new business improvement district (BID) in the western portion of a Downtown Los Angeles neighborhood known as South Park. The Greater South Park BID was approved by the City Council in 2004 and District services began in 2005. A decade later, in 2013, a group of property owners expressed interest in forming a new business improvement district (BID) in the eastern portion of South Park. The South Park II BID was approved by the Los Angeles City Council in 2015, and District services began in 2016. Both BIDs developed their budget, assessments and services based on a series of meetings with property owners within the District area. The Greater South Park BID is renewing and expanding to include the South Park II BID area; collectively, they comprise the entire Downtown Los Angeles neighborhood known as (Greater) South Park.

The proposed renewed District is located in the southwest section of Downtown Los Angeles, and is bounded by three other existing Business Improvement Districts (BIDs): the Downtown Center BID, the Historic Downtown Los Angeles BID and the Los Angeles Fashion District BID, and two freeways: the Harbor (110) Freeway and the Santa Monica (10) Freeway. The proposed renewed District generally includes all properties between 9th Street/Olympic Boulevard on the north, 17th Street/Santa Monica (10) Freeway on the south and an irregular eastern boundary formed principally by an alley between Broadway and Main Streets. The eastern boundary of the District abuts and precisely conforms to the western boundary of the Los Angeles Fashion District BID (another property-based BID that was formed prior to the establishment of this District.) The District includes north-south corridors along Figueroa Street, Flower Street, Hope Street, Grand Avenue, Olive Street, Hill Street and Broadway, and east-west corridors along 9th Street, Olympic Boulevard, 11th Street, 12th Street, Pico Boulevard, 14th Place, 14th Street, 15th Street, Venice Boulevard and 17th Street.

District Boundary Description: The proposed renewed District is bounded by three existing Business Improvement Districts (BIDs) and two freeways: the Harbor (110) Freeway and the Santa Monica (10) Freeway. State PBID Law (Streets and Highways Code Section 36622) declares that: “The boundaries of a proposed property assessment district shall not overlap with the boundaries of another existing property assessment district created pursuant to this part.” To the north, the proposed renewed District is bounded by the Downtown Center BID and the Historic Downtown Los Angeles BID. To the east, the proposed renewed District is bounded by the Los Angeles Fashion District BID. To the west, the District is bounded by the Harbor (110) Freeway, which both visually and physically separates the proposed renewed District from the neighborhood located west of the 110 Freeway. To the south, the District is bounded by the Santa Monica (10) Freeway and 17th Street (freeway frontage road) which both

visually and physically separates the proposed renewed District from the neighborhood located south of the 10 Freeway. All parcels excluded from the proposed renewed District either lie within an existing BID, or lie west of the 110 Freeway or south of the 10 Freeway. The boundary of the proposed renewed District and parcels within it are shown on the map of the District on p. 10 of this Management District Plan. The District includes all parcels within the detailed boundaries described below.

True Point of Beginning: Beginning at the northwest corner of the District, at the intersection of the eastern edge of the 110 (Harbor) Freeway right-of-way and the centerline of James M. Wood Boulevard (9th Street), and continuing along said centerline of James M. Wood Boulevard and 9th Street to the centerline of Flower Street; thence south along said centerline of Flower Street to the centerline of Olympic Boulevard; thence east along Olympic Boulevard to the centerline of the said unnamed alley that runs parallel to and between Hill Street and Broadway; thence south along said centerline of the unnamed alley that runs parallel to and between Hill Street and Broadway to the centerline of 11th Street; thence east along said centerline of 11th Street to the centerline of the unnamed alley that runs parallel to and between Broadway and Main Street; thence south along said centerline of the said unnamed alley that runs parallel to and between Broadway and Main Street to the centerline of 12th Street; thence east along said centerline of 12th Street to the centerline of Main Street; thence south along said centerline of Main Street to the easterly prolongation of the south property line of APN 5139026012; thence west along said south property line of said APN 5139026012 to its intersection with the east property line of APN 5139026004; thence south along said east property line of said APN 5139026004 and continuing south along the east property lines of APN 5139026007, APN 5133010017, APN 5133010008, APN 5133010014, APN 5133009002, APN 5133009008, APN 5133008005, APN 5133008008, APN 5133007008, APN 5133007006, APN 5133006006 and APN 5133006005 to the centerline of 17th Street; thence west along said centerline of 17th Street to the easterly prolongation of the south property line of APN 5134008006 and continuing along said property line of said APN , APN 5134008005, APN 5134008004, APN 5134007016 and APN 5134007018 to the intersection of said APN 5134007018 with the eastern edge of the Harbor (110) Freeway; thence north along said eastern edge of the Harbor (110) Freeway to the intersection of said eastern edge of the Harbor (110) Freeway with the centerline of LA Live Way; thence north along said centerline of LA Live Way to its intersection with said eastern edge of said Harbor (110) Freeway; thence north along said eastern edge of the Harbor (110) Freeway to the True Point of Beginning.

There are five zones within the District. The exterior perimeter boundaries of Zones 1, 2, 3, 4 and 5 are more specifically described as follows:

Benefit Zone 1 Description

Beginning at the northwest corner of Zone 1, at the intersection of the eastern edge of the Harbor (110) Freeway and the centerline of Olympic Boulevard; thence east along said centerline of Olympic Boulevard to the centerline of Figueroa Street; thence south along said centerline of Figueroa Street to the easterly prolongation of the south property line of APN 5138016913; thence west along said south property line of said APN 5138016913 to the intersection of said south property line of said APN 5138016913 with the west property line of said APN 5138016913; thence north along the western property line of said APN 5138016913 to the centerline of Chick Hearn Court; thence west along said centerline of Chick Hearn Court to the intersection of said centerline of Chick Hearn Court with the eastern edge of the Harbor (110) Freeway, thence north along said eastern edge of the Harbor (110) Freeway to the intersection of said eastern edge of the Harbor (110) Freeway with said centerline of Olympic Boulevard.

Benefit Zone 2 Description

Beginning at the northwest corner of Zone 2, at the intersection of the eastern edge of the Harbor (110) Freeway and the centerline of Chick Hearn Court; thence east along said centerline of Chick Hearn Court to the northerly prolongation of the eastern property line of APN 5138016912; thence south along said eastern property line of said APN 5138016912 and continuing south along the eastern property line of APN 5134007933 to the intersection of the southerly prolongation of said eastern property line of APN 5134007933 with the centerline of Venice Boulevard; thence west along said centerline of Venice Boulevard to its intersection with said eastern edge of the Harbor (110) Freeway; thence north along said eastern edge of the Harbor (110) Freeway to the centerline of LA Live Way; thence north along said centerline of LA Live Way to its intersection with the centerline of Chick Hearn Court.

Benefit Zone 3 Description

Beginning at the northwest corner of Zone 3 (aka the True Point of Beginning), at the intersection of the eastern edge of the 110 (Harbor) Freeway and the centerline of James M. Wood Boulevard (9th Street), and continuing along said centerline of James M. Wood Boulevard and 9th Street to the intersection of 9th Street with the easterly prolongation of the north property line of APN 5138018027; thence east along said north property line of said APN 5138018027 to its intersection with the west property line of said APN 5138018027; thence south along said west property line of said APN 5138018027 and continuing south along the west property line of APN 5138002029, APN 5138002019, APN 5138002031, APN 5138012024, APN 5138012023, APN 5138012007, APN 5138012008, APN 5138012009, APN 5138012010, APN 5138012011 and APN 5138012012 to the intersection of the southerly prolongation of the west property line of said APN 5138012012 with the centerline of 11th Street; thence east

along said centerline of 11th Street to the intersection of said centerline of 11th Street with the centerline of Flower Street; thence south along said centerline of Flower Street to the intersection of said centerline of Flower Street with the centerline of Pico Boulevard; thence east along said centerline of Pico Boulevard to the intersection of said centerline of Pico Boulevard with the northerly prolongation of the eastern property line of APN 5134010023; thence south along said eastern property line of said APN 5134010023 to the intersection of the southerly prolongation of said APN 5134010023 with the centerline of Cameron Lane; thence west along said centerline of Cameron Lane to the centerline of Lebanon Street; thence south along said centerline of Lebanon Street to the intersection of said centerline of Lebanon Street with the northern edge of the Santa Monica (10) Freeway; thence west along the northern edge of the Santa Monica (10) Freeway to its intersection with the centerline of Venice Boulevard; thence east along said centerline of Venice Boulevard to the centerline of Figueroa Street; thence north along said centerline of Figueroa Street to the centerline of Olympic Boulevard; thence west along said centerline of Olympic Boulevard to the intersection of said centerline of Olympic Boulevard with the eastern edge of the Harbor (110) Freeway; thence north along said eastern edge of the Harbor (110) Freeway to said intersection of the eastern edge of the 110 (Harbor) Freeway and the centerline of James M. Wood Boulevard (9th Street.)

Benefit Zone 4 Description

Beginning at the northwest corner of Zone 4, at the intersection of the centerline of Figueroa Street and the centerline of 9th Street, and continuing east along said centerline of 9th Street to its intersection with the centerline of Flower Street; thence south along said centerline of Flower Street to its intersection with the centerline of Olympic Boulevard; thence east along said centerline of Olympic Boulevard to its intersection with the centerline of Margo Street (an alley); thence south along said centerline of Margo Street to its intersection with the centerline of 14th Street; thence east along said centerline of 14th Street to its intersection with the centerline of Olive Street; thence south along said centerline of Olive Street to its intersection with the centerline of 15th Street; thence east along said centerline of 15th Street to its intersection with the centerline of Hill Street; thence south along said centerline of Hill Street to its intersection with the centerline of Venice Boulevard; thence west along said centerline of Venice Boulevard to its intersection with the centerline of 17th Street; thence west along said centerline of 17th Street to its intersection with the northern edge of the Santa Monica (10) Freeway; thence east along said northern edge of the Santa Monica (10) Freeway to its intersection with the centerline of Lebanon Street (an alley); thence north along said centerline of Lebanon Street to its intersection with Cameron Lane (an alley); thence east along said centerline of Cameron Lane to its

intersection with the southerly prolongation of the western property line of APN 5134010004; thence north along said western property line of said APN 5134010004 to the centerline of Pico Boulevard; thence east along said centerline of Pico Boulevard to its intersection with the centerline of Flower Street; thence north along said centerline of Flower Street to its intersection with the centerline of Chick Hearn Court (aka 11th Street); thence west along said centerline of Chick Hearn Court to the southerly prolongation of the western property line of APN 5138012032; thence north along said western property line of said APN 5138012032, and continuing along the western property lines of APN 5138012030, APN 5138012026, APN 5138012017, APN 5138012016, APN 5138012015, APN 5138012014, APN 5138012013, APN 5138012002, and APN 5138002030 to its intersection with the southern property line of APN 5138018027; thence east along said southern property line of said APN 5138018027 to its intersection with the eastern property line of said APN 5138018027; thence north along said eastern property line of said APN 5138018027 to its intersection with the northern property line of said APN 5138018027; thence west along said northern property line of said APN 5138018027 to its intersection with the centerline of Figueroa Street; thence north along said centerline of Figueroa Street to its intersection with the centerline of 9th Street.

Benefit Zone 5 Description

Beginning at the northwest corner of Zone 5, at the intersection of the centerline of Olympic Boulevard and the centerline of Margo Street (an alley), and continuing east along said centerline of Olympic Boulevard to its intersection with the centerline of Blackstone Court (an alley); thence south along said centerline of Blackstone Court to its intersection with the centerline of 11th Street; thence east along said centerline of 11th Street to its intersection with an unnamed alley that runs parallel to and between Broadway and Main Street; thence south along said centerline of said unnamed alley that runs parallel to and between Broadway and Main Street to its intersection with the centerline of 12th Street; thence east along said centerline of 12th Street to its intersection with the centerline of Main Street; thence south along said centerline of Main Street to its intersection with the easterly prolongation of the southern property line of APN 5139026012; thence west along said south property line of said APN 5139026012 to its intersection with the east property line of APN 5139026004; thence south along said east property line of said APN 5139026004 and continuing south along the east property lines of APN 5139026007, APN 5133010017, APN 5133010008, APN 5133010014, APN 5133009002, APN 5133009008, APN 5133008005, APN 5133008008, APN 5133007008, APN 5133007006, APN 5133006006 and APN 5133006005 to the centerline of 17th Street; thence west along said centerline of 17th Street to its intersection with the centerline of Olive Street; thence north along said centerline of

Olive Street to its intersection with the centerline of Venice Boulevard; thence east along said centerline of Venice Boulevard to its intersection with the centerline of Hill Street; thence north along said centerline of Hill Street to its intersection with the centerline of 15th Street; thence west along said centerline of 15th Street to its intersection with the centerline of Olive Street; thence north along said centerline of Olive Street to its intersection with the centerline of 14th Street; thence west along said centerline of 14th Street to its intersection with the centerline of Margo Street; thence north along said centerline of Margo Street to its intersection with the centerline of Olympic Boulevard.

Zone Boundary Rationale: There are five benefit zones within the proposed renewed District. The rationale for the boundaries of Zones 1, 2, 3, 4 and 5 are more specifically described as follows:

Benefit Zone 1 Rationale:

Zone 1 represents all identified assessed parcels within the Staples Center and LA Live/Nokia Center parcels. The need for a higher frequency of services is based upon the high density sports facility, tourism related, entertainment related and activities that require daily special benefit services to respond to the needs of each of these identified assessed parcels to mitigate the impact of high volumes of visitors and sports facility patrons. The residential condos within Benefit Zone 1 will derive a different type and higher frequency of special benefit services as articulated in the explanation on p. 22. *Benefit Zone 1 identified assessed parcels will pay assessments totaling \$500,599 or approximately 20% of the overall renewed District first year revenues due to the fact that they have the greatest need due to the intensification of land use including sports facilities, hotels, restaurants, retail, residential and their proximity to Figueroa Street and the freeway off ramps.*

Benefit Zone 2 Rationale:

Zone 2 identified assessed parcels are to be found in the immediate area owned and operated by the Los Angeles Convention Center. These parcels are generally bounded by the Harbor (110) Freeway from Chick Hearn Court to the Santa Monica (10) Freeway and along Venice Boulevard from the Santa Monica (10) Freeway to Figueroa Street. The Convention Center requires special benefit services delivered only on their periphery based upon the usage of the Center for various Conventions throughout the year. Special benefit services will be provided along the periphery of the Convention Center, particularly along Figueroa Street, scheduled to coincide with the size of the various Conventions and special events that are held at the Center. When Conventions are not using the Center, sidewalk sweeping services will be provided regularly along the

periphery of the Convention Center identified assessed parcels including the following streets: Figueroa Street, Venice Boulevard, LA Live Way, Chick Hearn Court, Pico Boulevard between Figueroa Street and the 110 Freeway, except parcel number 5138-016-913, which is operated by the Staples Center. *Benefit Zone 2 identified assessed parcels will pay assessments totaling \$89,121 or approximately 4% of the overall renewed District first year revenues. Services will be provided as needed based upon budget limitations.*

Benefit Zone 3 Rationale:

Zone 3 includes almost exclusively commercially zoned parcels abutting Staples Center and LA Live, oriented along the east side of Figueroa Street and the north side of Olympic Boulevard. These parcels experience intense pedestrian and commercial activity. Many Zone 3 parcel uses relate very directly to the Staples Center, LA Live and/or the Convention Center. Zone 3 identified assessed parcels have programs and services at a lower frequency than those in Benefit Zone 1. "Regular "sidewalk operations" services shall be allocated to these identified assessed parcels at a frequency less than Zone 1. These identified assessed parcels are located along the north side of Olympic Boulevard between the Santa Monica (10) Freeway and Figueroa Street. Benefit Zone 3 parcels also include those identified assessed parcels that front along Figueroa Street from the southern corners of the intersection of James W. Wood Boulevard and 9th Street running southward along the east side of Figueroa up to the Santa Monica (10) freeway. The residential condo identified assessed parcels within Benefit Zone 3 (where they are sporadically concentrated) will derive a different type and higher frequency of special benefit services as articulated in the explanation on p. 22.

Benefit Zone 3 identified assessed parcels will pay assessments totaling \$451,059 or approximately 18% of the overall renewed District first year revenues. Services will be provided as needed based upon budget limitations.

Benefit Zone 4 Rationale:

Zone 4 includes a mix of commercially zoned parcels and high-density residentially zoned parcels (most of which have ground-floor commercial uses and/or parking) oriented along the north-south corridors of Flower Street, Hope Street and Grand Avenue. Zone 4 identified assessed parcels have programs and services at a lower frequency relative to Benefit Zones 1 and 3, based upon the lower demand of the identified assessed commercial, industrial, institutional, public and vacant parcels fronting along the public rights of way. The residential condo identified assessed parcels within Benefit Zone 4 (where they are highly concentrated) will derive a different type

and higher frequency of special benefit services as articulated in the explanation on p. 22. Otherwise the identified assessed institutional public, industrial, commercial and residential rental parcels will receive special benefit services based upon a lower frequency of services than Benefit Zones 1, 3 and 4.

Benefit Zone 4 identified parcels will pay assessments totaling, \$1,007,922 or approximately 40% of the overall renewed District first year revenues. Of this total, the residential condo unit parcels make up \$441,661 or approximately 44% of the total assessments paid within this benefit zone. It is due to this high concentration of residential condo identified assessed parcels that the enhanced clean and safe services are primarily allocated within this benefit zone - to provide proportional benefit based upon the assessments generated for these special benefit services. Services will be provided as needed based upon budget limitations.

Benefit Zone 5 Rationale:

Zone 5 includes a mix of commercially zoned parcels and high-density residentially zoned parcels (many of which have ground-floor commercial uses and/or parking) oriented along the north-south corridors of Olive Street, Hill Street and Broadway. Zone 5 identified assessed parcels have programs and services at a lower frequency relative to Benefit Zones 1, 2, 3 and 4, based upon the lower demand of the identified assessed commercial, industrial, public and vacant parcels fronting along the public rights of way. The public, industrial, commercial and residential rental properties will receive special benefit services based upon a lower frequency of services than Benefit Zones 1, 2, 3 and 4.

Benefit Zone 5 identified parcels will pay assessments totaling, \$439,066 or approximately 18% of the overall renewed District first year revenues. There are no residential condo unit parcels within this benefit zone at the time of this writing; however, some parcels have received tract maps and future condo units are possible.

Commercial Condominium Parcel Assessments: Each commercial condo will be assessed on lot, building square footage and linear frontage identically to the assessment methodology established for all other commercial identified assessed parcels in each of the Benefit Zones.

Residential Condominium Parcel Assessments: All residential condo identified assessed parcels (which currently exist in all Benefit Zones except Zone 2 and Zone 5) will be assessed at a rate of \$0.33075 per square foot of building area *only*. This rate applies to all residential condo identified assessed parcels regardless of their Benefit Zone. A thorough explanation of why residential condo identified assessed parcels are assessed using a different methodology than all other parcels, and also why residential condo identified assessed parcels are assessed at the same rate regardless of their Benefit Zone, can be found on p. 27 and p. 22, respectively.

3 Service & Improvement Plan

Plan Development: In 2002, a group of property owners expressed interest in forming a new business improvement district (BID) in the western portion of a Downtown Los Angeles neighborhood known as South Park. The South Park BID was approved by the City Council in 2004 and District services began in 2005. A decade later, in 2013, a group of property owners expressed interest in forming a new business improvement district (BID) in the eastern portion of South Park. The South Park II BID was approved by the Los Angeles City Council in 2015, and District services began in 2016. As discussed during its formation, the South Park II BID has always intended to become an expansion area for the Greater South Park BID at its next renewal. Both BIDs developed their budget, assessments and services based on a series of meetings with property owners within the District area.

The top priority for the District remains the “clean and safe” programming. The second priority for the District is district identity and marketing (website, database, newsletters and other marketing and business attraction efforts.) The third priority is administration and management. A highly professional, full-time management team was viewed as essential to the implementation and oversight of all other priorities. These priorities are reflected in the budget they developed for the identified assessed parcels in the District. These priorities have been comprehensively reassessed upon any renewal of the District, but have largely remained the same over time.

Service & Improvement Plan: The District includes 2,047 individually-assessed parcels of which 2,044 are identified as assessable within five Benefit Zones as described on p. 12, and which are individually listed in the Assessment Roll on p. 34. The parcels within the boundaries of the proposed renewed District which will receive special benefits from District funded programs and services are currently a mix of general commercial, retail, office, commercial parking, industrial, government/public uses, residential apartment and mixed-use buildings which are most commonly comprised of residential condos over commercial condos and/or parking. The special benefits provided to each parcel type are also discussed in the Quantitative Benefit Analysis section, p. 10 of the Engineer’s Report.

All services are special benefits that shall be provided only to those identified parcels within the District, and that shall be provided consistent with the individual assessment for that parcel. An explanation of special and general benefits can be found on p. 4. The three categories of special benefits provided to all identified District parcels are as follows:

- 1) *Clean & Safe Programs* \$1,650,177 (*Special + General Benefit Costs*) 66%

Clean encompasses all sidewalk, curb and other right-of-way services for each assessed parcel in the District and includes: sweeping, litter removal, enhanced emptying of trash

cans, pressure washing/steam cleaning, graffiti/flyer/sticker/gum removal, tree trimming and weeding. Clean also includes the cost of equipment necessary to provide these services. Clean may also include property owner notification of conditions on private property that are unsafe or unfavorable to creating and preserving a clean and safe environment in the District (e.g. broken window/gate, vandalism, accumulated debris/garbage, etc.) Clean may also include notification to the City or other entities as appropriate (e.g. utilities) of any damage to public infrastructure or utilities.

Safe encompasses all patrol/ambassadorial services for each assessed parcel in the District and includes: personnel on foot, bike, or other vehicles (e.g. Segways, trucks, etc.), ambassadors (specially trained personnel able to provide directions, transit information, business information, event information, social service referrals, etc.), on-call assistance, crowd control, crime prevention activities (e.g. Neighborhood Watch), escort services and distribution of special bulletins (e.g. street closures, emergency alerts.) Safe also includes the cost of equipment necessary to provide these services.

The goal of the clean and safe programs is to ensure that all identified assessed parcels are clean, safe, and beautiful, thereby creating a safe and attractive District. Various levels of clean and safe activities will be required over time to maintain the District.

To assist the Owners' Association in budgeting and the deployment of resources, an incident-tracking software/database has been developed to track calls for clean and safe services. The ongoing maintenance of this database and expansion as deemed necessary is also an important component of the clean and safe programs. This data will help ensure that negative public safety trends are identified quickly and can be addressed effectively with the right deployment of resources. Implementation of new technology to enhance the efficiency and efficacy of clean and safe services is also part of maintaining robust clean and safe programs.

Clean and safe programs will assist in creating a safe and secure environment for each assessed parcel in the District. A dirty or unsafe environment deters commerce and may fail to attract patrons and visitors, and reduce commercial rents and commercial occupancies. For parcels with general commercial, retail, office, entertainment, industrial and commercial parking uses, this activity is designed to increase vehicular and pedestrian traffic, increase commerce and customer activity, attract and retain new business and patrons, and may increase commercial rents and commercial occupancies for the assessed parcels within the BID boundaries. In the case of assessed publicly owned parcels, District funded clean and safe programs and services provide these parcels with safer and enhanced facility entrances and perimeters and better public facilities in turn for their employees, students, visitors, vendors and users of these public facilities. Further, in the case of assessed residential use parcels, District funded clean and safe programs and services are

designed to improve the security of entrances and perimeters for the special benefit of each assessed residential parcel and in turn, their tenants, visitors and owners, which, in turn, may increase occupancies and rental income. Each assessed parcel will specially benefit from the clean and safe programs and services which will only be provided to, and for the direct benefit of, each identified assessed parcel within the District boundaries.

2) *Administration & Management* \$375,040 (*Special + General Benefit Costs*) 15%

Administration & Management includes activities such as: personnel, operations, professional services (e.g. legal, accounting, insurance), production of the Annual Planning Report and Budget and quarterly reports, facilitation of meetings of the Owners' Association, Brown Act compliance, outreach to District property and business owners, and participation in professional peer/best practice forums such as the LA BID Consortium, the California Downtown Association or the International Downtown Association. It also covers the costs associated with District renewal, as well as City and/or County fees associated with their oversight and implementation of the District, the Owners' Association's compliance with the terms of its contract with the City, and the implementation of the Management District Plan and the Engineer's Report.

This component is key to the proper expenditure of District assessment funds and the administration of District programs and activities for the special benefit of all parcels and land uses within the the District. The District Administration and Management program exists only for the purposes of the District and directly relates to the implementation of clean, safe, marketing and district identity programs, which specially benefit each identified assessed parcel within the District boundaries as described in #1 above and #3 below.

3) *Marketing & District Identity* \$475,051 (*Special + General Benefit Costs*) 19%

Marketing & District Identity includes activities designed to enhance the attractiveness and marketability of these parcels through the following activities: production of a quarterly (minimum frequency) newsletter that shall be distributed to property owners in the District, efforts to cultivate and recognize the satisfaction, retention and attraction of businesses, employees and customers/visitors, advertising, response to media inquiries, cultivation of media exposure, and promotion of the District as a great place to live, work or visit through a website and/or social media. To the extent that funds are available, it could also include additional efforts such as a District-wide marketing strategy, holiday lighting, street banners, wayfinding activities, art installation or development of special events (e.g. festival) or other community identity and branding efforts that promote the assessed parcels in the District.

For parcels with general commercial, retail, office, entertainment, industrial and commercial parking uses, Marketing & District Identity services are specifically designed to

attract more customers, employees, tenants and investors for the special benefit of assessed parcels as a result of marketing assessed parcels and the goods and services and spaces available on these assessed parcels. This in turn, is intended to increase business volumes, sales transactions, commercial occupancies, commercial rental income and investment return. In the case of publicly owned parcels that are assessed for these programs, District funded marketing and district identity creates better public facilities and services on these assessed parcels by fostering better informed public employees, students, visitors, vendors and users of these public facilities. Further, in the case of residential use parcels, District funded marketing and district identity specially benefits each assessed residential parcel and creates better informed tenants, visitors and owners, which, in turn, enhance livability and may increase residential occupancies and rental income. The marketing and district identity program will only be provided to, and for the direct and special benefit of, each identified assessed parcel within the District.

Unique services for residential condominiums: Residential condominiums in the District require a higher level of service than other parcels in the District. Residential condominiums shall receive enhanced services in addition to those received by commercial, industrial and commercial condominium parcels in the District. These services correspond directly to the special assessments tied to these parcels, and to the assessment methodology outlined for residential condominium parcels beginning on p. 26 of this Management District Plan. These enhanced services provided to residential condominium parcels include:

- 1) More frequent sidewalk, curb and gutter cleaning on the frontages adjacent to the residential condominium identified assessed parcels;
- 2) More frequent pressure washing/steam cleaning on the frontages adjacent to the residential condominium identified assessed parcels;
- 3) Enhanced patrols in the evening hours, weekends or holidays on the frontages adjacent to the residential condominium identified assessed parcels;
- 4) Installation and restocking of pet waste stations on the frontages adjacent to the residential condominium identified assessed parcels;
- 5) Efforts to outreach, design and implement streetscape enhancements on the frontages adjacent to the residential condominium identified assessed parcels, pending the availability of sufficient funding;
- 6) Other services requested by the condominium owners that confer special benefit on the frontages adjacent to the residential condominium identified assessed parcels.

In summary, all District funded services, programs and improvements described above confer special benefits to identified assessed parcels inside the District boundaries and none will be provided outside of the District. Each assessed parcel within the SPBID will proportionately specially benefit from the District Clean & Safe, Administration/District Management and

Marketing & District Identity. These services, programs and improvements are intended to improve commerce, employment, livability, rents, occupancy rates and investment return of parcels, businesses and residences within the SPBID by reducing crime, litter and debris, and professionally marketing goods, services and spaces available within the District, all considered necessary in a competitive properly managed contemporary mixed-use business district. All District funded services programs and improvements are considered supplemental, above normal base level services provided by the City of Los Angeles and are only provided for the special benefit of each and every assessed parcel within the boundaries of the SPBID.

Service Schedule: Service demands may vary year-to-year. The decision to prioritize one special benefit within a particular budget category over another will be reviewed and decided by the Owners' Association year-by-year. For example, clean services may be the greater priority in year one; safe services may be the greater priority in year two. The goal of a clean and safe District is constant; the type and frequency of specific services necessary to achieve this goal may vary based on special benefit needs. Similarly, actual service hours and deployment schedules may vary during the year in order to best meet the needs of the District. Maintaining a strong baseline of cleanliness and safety is viewed by the District Steering Committee as an essential foundation for all other District activities.

The Owners' Association Board of Directors will develop and refine a detailed operation deployment schedule; upon establishment of the District and commencement of services, property owners may request copies of the annual planning report, quarterly reports and a current deployment schedule from the Owners' Association to fully understand the current type and schedule of services and improvements in the District.

It is recognized that market conditions may cause the cost of providing goods and services to fluctuate from year to year during the 5-year term of the proposed renewed District. Accordingly, the Owners' Association shall have the ability to reallocate up to 10% of any budget line item within the budget categories based on such cost fluctuations subject to the review and approval by the Owners' Association Board and included in the Annual Planning Report that will be approved by the Los Angeles City Council pursuant to Streets and Highways Code Section 36650. Any accrued interest or delinquent payments may be expended in any budget category.

Lastly, resources permitting, the District may pursue any grant funding for which it is eligible in order to augment any or all of these budget categories.

4 Assessment Methodology

There are five benefit zones in the District. The District boundaries and Zone boundaries are described in detail beginning on p. 11. The rationale for the District and Zone boundaries are described in detail on p. 11 and p. 16 respectively. Each parcel within any particular zone is subject to the same assessment methodology and shall provide proportional special benefits to all identified assessed parcels, excepting residential condominium parcels, as explained below and in the Service & Improvement Plan on p. 19.

General Benefits: The total service and improvement plan budget for 2018 is \$2,500,268. Property assessments shall fund \$2,487,767. The Engineer's Report found a 0.5% general benefit to non-assessed parcels (see p. 13 of the Engineer's Report.) The amount of the 2018 budget attributable to general benefit and funded by non-assessment revenue is \$12,501.

See p. 4 of this report, and the Quantitative Benefit Analysis section, p. 10 of the Engineer's Report, for a definition of special vs. general benefits, an explanation of the method used to calculate general benefits, and an explanation of the special benefits to be conveyed for each of the various land use categories.

For a table showing the annual budget totals for Year 1 (2018) through Year 5 (2022) and a breakdown of special + general benefit allocations/costs, please see the table on p. 5.

Total Assessment Revenue for the District by Zone (2018)

Commercial, Industrial and Publicly Owned Parcel Assessments: All assessable commercial, industrial and publicly owned parcels shall be assessed on a combination of building and lot and linear frontage. In Zone 1, each assessable commercial, industrial or publicly owned parcel shall be assessed at a rate of \$0.055125 per square foot of building, and \$0.071663 per square foot of lot, and \$16.5375 per linear foot of frontage. In Zone 2, each assessable commercial, industrial or publicly owned parcel shall be assessed at a rate of \$0.00 per SF of building and \$0.00 per square foot of lot, and \$16.5375 per linear foot of frontage. In Zone 3, each assessable commercial, industrial or publicly owned parcel shall be assessed at a rate of \$0.055125 per SF of building and \$0.071663 per square foot of lot, and \$13.23 per linear foot of frontage. In Zone 4, each assessable commercial, industrial or publicly owned parcel shall be assessed at a rate of \$0.27563 per SF of building and \$0.0441 per square foot of lot, and \$11.025 per linear foot of frontage. In Zone 5, each assessable commercial, industrial or publicly owned parcel shall be assessed at a rate of \$0.04 per SF of building and \$0.025 per square foot of lot, and \$10 per linear foot of frontage.

Commercial, industrial or publicly owned parcel example:

A property owner has a 2,700 SF commercial, industrial or publicly owned building on a 5,000 SF lot with 150 linear feet of frontage, located in Zone 1. The owner’s annual assessment would be calculated as follows:

ZONE 1 EXAMPLE

2,700 x \$0.055125/square foot (bldg)	=	\$ 148.84
5,000 x \$0.071663/square foot (lot)	=	\$ 358.32
<u>150 x \$16.5375/linear foot (frontage)</u>	=	<u>\$2,480.63</u>
TOTAL ASSESSMENT	=	\$2,987.79

ZONE 2 EXAMPLE

A property owner has a 2,700 SF commercial, industrial or publicly owned building on a 5,000 SF lot with 150 linear feet of frontage, located in Zone 2. The owner’s annual assessment would be calculated as follows:

2,700 x \$0.00/square foot (bldg)	=	\$ 0.00
5,000 x \$0.00/square foot (lot)	=	\$ 0.00
<u>150 x \$16.5375/linear foot (frontage)</u>	=	<u>\$2,480.63</u>
TOTAL ASSESSMENT	=	\$2,480.63

ZONE 3 EXAMPLE

A property owner has a 2,700 SF commercial, industrial or publicly owned building on a 5,000 SF lot with 150 linear feet of frontage, located in Zone 2. The owner's annual assessment would be calculated as follows:

2,700 x \$0.055125/square foot (bldg)	=	\$ 148.84
5,000 x \$0.071663/square foot (lot)	=	\$ 358.32
<u>150 x \$13.23/linear foot (frontage)</u>	=	<u>\$1,984.50</u>
TOTAL ASSESSMENT	=	\$2,491.66

ZONE 4 EXAMPLE

A property owner has a 2,700 SF commercial, industrial or publicly owned building on a 5,000 SF lot with 150 linear feet of frontage, located in Zone 2. The owner's annual assessment would be calculated as follows:

2,700 x \$0.027563/square foot (bldg)	=	\$ 74.42
5,000 x \$0.0441/square foot (lot)	=	\$ 220.50
<u>150 x \$11.025/linear foot (frontage)</u>	=	<u>\$1,653.75</u>
TOTAL ASSESSMENT	=	\$1,948.67

ZONE 5 EXAMPLE

A property owner has a 2,700 SF commercial, industrial or publicly owned building on a 5,000 SF lot with 150 linear feet of frontage, located in Zone 2. The owner's annual assessment would be calculated as follows:

2,700 x \$0.025/square foot (bldg)	=	\$ 67.50
5,000 x \$0.04/square foot (lot)	=	\$ 200.00
<u>150 x \$10/linear foot (frontage)</u>	=	<u>\$1,500.00</u>
TOTAL ASSESSMENT	=	\$1,767.50

Rationale for Commercial, Industrial and Publicly owned Parcel Assessments: For the array of land uses within the PBID, the interactive application of building area, land area and street frontage quantities are a proven method of fairly and equitably spreading special benefit costs to these beneficiaries of PBID funded services, programs and improvements. Each of these factors directly relates to the degree of special benefit each assessed parcel will receive from PBID funded activities. More detail on these factors is provided on p. 26 of the Engineer's Report.

Residential Condominium Parcel Assessments: Each residential condominium identified assessed parcel in the District (regardless of zone) shall be assessed at \$0.33075 per SF of its

building area. Lot and frontage shall not be assessed. The rationale for this assessment is outlined in more detail below.

Residential condominium example: A property owner in any zone has a 900 SF residential condominium unit. The owner's annual assessment would be calculated as follows:

$$\begin{array}{rcl} 900 \times \$0.33075 / \text{square foot (IBP)} & = & \$297.68 \\ \text{TOTAL ASSESSMENT} & = & \$297.68 \end{array}$$

Rationale for Residential Condominium Assessments: Residential condominium building area is a direct measure of the static utilization of each condominium unit (parcel) and its corresponding impact or draw on District funded activities. The vast majority of residential condominium parcels and units are newer residential condominiums. It is the opinion of this Assessment Engineer that these residential condominium parcels will proportionately specially benefit from PBID funded programs and activities, but differently than commercial parcels. The building area assessments for residential condominium parcels shall be assessed at \$0.33075 per square foot of condominium unit building area. This assessment rate structure is commensurate with the types of special benefit services and programs provided by the District for the special benefit of residential condominium parcels and complexes.

Residential condo parcels are assessed differently than multi-unit, for-rent apartment buildings, due to the frequency of special benefit services required by each parcel. The residential condo parcels will receive the highest frequency of clean and safe services and will be the only parcels to receive enhanced services described in the Service & Improvement Plan on p. 19. The multi-unit apartment buildings are commercial properties in which the tenant and landlord have a business relationship. Multi-unit apartment buildings are required to have a business license to operate in the City of Los Angeles and these residential apartment buildings can be bought or sold just as commercial buildings can be bought and sold. In addition, apartment tenants can be evicted by a property owner, something that sets them apart from residential condo unit parcels. Their stake, and therefore their special benefit, are of a different nature and is very similar to a commercial property owner and a tenant.

Furthermore, distinctions between residential tenants and residential condominium owners, and their relationship to the assessment methodology and the special benefits they will receive, are as follows:

- 1) Distinctions between residential owners and tenants are codified in the California Civil Codes, Davis Sterling Act. This piece of legislation creates an entire set of rules and regulations on how residential condo owners have obligations based upon their "separate interests." Tenants have no such rights;

- 2) Multi-unit apartment buildings are commercial properties in which the tenant and landlord have a business relationship. These buildings are required to have a business license to operate in the City of Los Angeles and the buildings can be bought or sold just as commercial buildings can be bought and sold. The tenant's investment in his dwelling place is of a very different nature than a condominium owner. It is very similar to the relationship between a commercial property owner and a tenant;
- 3) Los Angeles recognizes the distinction between the rights of tenants and owners by having tenant eviction laws;
- 4) In practice, residential owners demonstrate greater concern and are more forceful in advocating for resolution to the quality-of-life issues and nuisance activities that the proposed renewed District will address;
- 5) The state constitution requires that property assessment districts "confer special benefits to real property owners." Residential owners are "real property owners" and have the right to vote in a 218 hearing while tenants do not have that right;
- 6) Residential owners have legal rights to have pets, which impact their neighborhood; tenants have no such legal entitlements. These identified assessed residential parcels require special and enhanced services to accommodate their pets;
- 7) Residential owners are required by law to pay into and participate in a legally established Homeowners Association to oversee the maintenance of the building. They are required to monitor the impact of negative uses on that property and oversee the overall maintenance of their property. Residential tenants have no such legal obligation or requirement to oversee and maintain the property.
- 8) Permanent land use changes will affect residential owners to a much greater extent than tenants due to the fact that those land use changes may specifically benefit or harm their identified assessed parcels. Tenants have no such stake in those land use changes.
- 9) District outreach and advocacy in relation to community planning, land use, infrastructure and related issues and activities represent a special benefit that is conferred on each identified assessed parcel owner including all residential owners. No such special benefits are conferred upon residential tenants.

Future development: Other than future maximum rates and the assessment methodology delineated in this Management District Plan (MDP), per State Law (Government Code Section 53750,) future assessments may change for any given parcel if such a change is attributable to events other than an increased rate or revised methodology, such as a change in the density, intensity or nature of use of the land. Any change in assessment formula methodology or rates other than as stipulated in this MDP would require a new Proposition 218 ballot procedure in order to approve any such changes.

If a commercial, industrial or publicly owned parcel is converted to residential condominium use, the assessment methodology will change as stipulated on p. 26.

Time and manner of collecting assessments: If necessary, the Los Angeles City Clerk shall prepare a manual billing for all assessments for the Property Tax Year beginning July 1, 2017 and ending June 30, 2018. If not necessary, assessments for the Property Tax Year beginning July 1, 2017 and ending June 30, 2018, shall be collected at the same time and in the same manner as ad valorem taxes paid to the County of Los Angeles. In either scenario, Assessments for subsequent fiscal years, through and including the Fiscal Year ending June 30, 2022 (Operation Years 2019-2022) will be collected at the same time and in the same manner as ad valorem taxes paid to the County of Los Angeles. The District assessments shall appear as a separate line item on the property tax bills issued by the Los Angeles County Assessor. The City of Los Angeles is authorized to collect any assessments not placed on the County tax rolls, or to place assessments, unpaid delinquent assessments, or penalties on the County tax rolls as appropriate to implement this Management District Plan. If necessary, a manual billing may be prepared by the City of Los Angeles in lieu of the assessment's inclusion on the Assessor's property tax bills.

Errors: If a property owner believes there is an error on a parcel's assessed footages, the District may confirm the data with the LA County Assessor's office. If District data matches Assessor's data, the property owner may opt to work with the Assessor's office to correct the data so that the District assessment may be corrected.

5 District Rules

A Business Improvement District (BID) may establish unique rules and regulations that apply to the District. The District has not adopted any specific rules.

Bond Issuance: The District shall not issue bonds.

6 Implementation Timeline

In accordance with State law, the District will have a five (5) year term beginning January 1, 2018 and ending December 31, 2022. It is expected to begin services on or shortly after January 1, 2018, or as soon as possible subsequent to the District's renewal and the manual billing of assessments. If the District is not renewed, services will sunset on December 31, 2022.

7 Public Sector Participation

The District will provide the same level of improvements and activities, consistent with each identified assessed parcel's benefit zone, to the City of Los Angeles or any other identified assessed publicly owned parcels within the District boundary as are provided to non publicly owned parcels. All publicly owned identified assessed parcels will pay their proportional share of costs based on the special benefits conferred to each identified assessed parcel. The special benefit to publicly owned assessed parcels from these services is an increase in District customers, and an increased likelihood of attracting and retaining employees that follow from having a cleaner and safer area. Publicly owned parcels will receive special benefit in the form of increased use of the public facilities, increased attraction and retention of employees, which directly relates to fulfilling their public service mission. Article XIII(D) of the California Constitution was added in November of 1996 to provide for these assessments. It specifically states in Section 4(a) that *"Parcels within a district that are owned or used by any agency...shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit."*

There are thirteen (13) publicly owned parcels within the District of which ten (10) are identified as assessable and for which special benefit services will be provided. Of the ten (10) identified assessed parcels, one (1) is owned by the Los Angeles County Metropolitan Transit Authority (LACMTA), six (6) are owned by the City of Los Angeles, two (2) are owned by the Los Angeles Unified School District (LAUSD), and one (1) is owned by the Los Angeles Department of Water & Power (LADWP.) Of the three (3) non-identified exempt parcels, one (1) is owned by the State of California and two (2) by the United States Government. There are special circumstances affecting the levy of District assessments on certain publicly owned parcels as follows:

1. There are two US Federal publicly owned parcels within the District. The US Attorney General has declared that US Federal publicly owned parcels are exempt from local property assessments pursuant to the Supremacy Clause of the US Constitution. Proposition 218 does not allow parcels within a District to be assessed more than their respective proportionate amount of special benefit conferred on that parcel. As such, District funded services cannot be provided for the special benefit of parcels from which assessments cannot be levied or collected. Due to the Federal ruling on assessment exemption for Federal owned parcels, the District will provide no District funded services and programs that would specially benefit these particular US Federal publicly owned parcels. The District assessment amounts will be set at \$0 for these two Federal publicly owned parcels.

2. There is one State of California owned parcel within the District. This parcel covers an entire City block (1,011 linear feet of street frontage) with no other parcels within this four sided single State owned parcel and block. The State of California operates and provides regular 52 weeks a year full on-site and perimeter security and streetscape services for this State owned parcel similar to the security and streetscape services provided by the District. It is the opinion of this Engineer that this State owned parcel would receive no special benefits from duplicate clean and safe District funded services and can easily be isolated relative to not providing BID services on this four sided single parcel block. Further, it is the opinion of this Engineer that no special benefits will be conferred on this State owned parcel from District funded administration and management, marketing and district identity. The District will not interact administratively with this parcel or its owner or employees in any manner nor include it in any District communications such as newsletter distribution or list its presence or any matters or activities pertaining to this parcel on the District's website. As such, the District will provide no District funded services and programs that would specially benefit this particular State owned parcel and the District assessment amount will be set at \$0.
3. There are six (6) parcels and facilities owned by the City of Los Angeles within the District. Of the six parcels and facilities owned by the City of Los Angeles within the proposed renewed District, two are noted as follows:
 - a. City Public Works office building – this building has commercial space rented to private commercial businesses with public access. It is the opinion of this Engineer that this parcel will specially benefit from all District funded programs, services and improvements, including marketing and district identity and will be assessed at the same rates and methodology as commercial parcels in the District.
 - b. Fire Station - it is the opinion of this Engineer that the City owned Fire Station will NOT specially benefit from the District funded marketing and district identity programs, but will specially benefit from clean and safe programs and related management. As such, the assessment levied on this Fire Station parcel will coincide with this parcel's proportionate share of marketing and district identity costs.
4. There are two (2) LAUSD owned parcel(s) within the District.
 - a. One is an adult continuation school which covers an entire City block. LAUSD provides their own on-campus and perimeter security services with LAUSD Police personnel. No District security services will be provided to this LAUSD owned

parcel. District assessments for this LAUSD owned parcel has been adjusted to reflect the actual District funded services and corresponding special benefits that will be conferred on this LAUSD parcel.

- b. The second one is a multi-story public parking garage which occupies an entire City block. This parking facility is operated by a private parking vendor and operates just like any other public parking facility in or out of the SPBID. The LAUSD ownership is incidental and not germane to the operation of this facility. Similar to the SPBID assessment policy of fully assessing parking facilities used for public parking, it is the opinion of this Assessment Engineer that this parcel will be assessed at the respective benefit zone rate for the parking garage building area, the underlying land area and the parcel's four-sided street frontage.

Each identified assessed publicly owned parcel and facility within the District will proportionately benefit from the District funded supplemental clean and safe programs, newsletter, website and administration and management, except as noted herein. For identified assessed publicly owned parcels and facilities, each of these parcels specially benefit from District funded programs and services from cleaner and safer facility entrances and perimeters. In addition, the District funded marketing and district identity programs benefit publicly owned parcels, except as noted herein, by announcing public events and activities held at these public facilities and apprise employees of important District news, security issues and alerts and crime statistics. These services improve the safety and cleanliness and usability of each publicly owned assessed parcel and facility within the District by reducing crime, litter and debris, all considered detractors to employment, visitation and use of public facilities if not contained and properly managed.

In the opinion of this Assessment Engineer, there is no clear and convincing evidence that these 10 non-exempt publicly owned parcels will not proportionately specially benefit from PBID services, programs and improvements; therefore, each non-exempt publicly owned parcel will be assessed at the full rate for their respective zones with assessments to be based on the building area, land area and street frontage of each parcel, except as delineated above for the LAUSD parcel and the City Fire Station parcel.

The Table on the next page lists all publicly owned parcels within the proposed renewed District and their Year 1 (2017-18) assessment amounts.
